to Stockholders of record July 8th. This makes a total of 81/2 per cent since this Company began paying dividends in May. Its annual dividend rate is

MAY DIVIDEND, 21/2 per cent, Paid May 15th. JUNE DIVIDEND, 3 per cent, Paid June 15th. JULY DIVIDEND, 3 per ct., Payable July 15th.

July dividend payable July 15 to shareholders of record July 8. The reasons for the success of the "Katy" Oil Co. as a dividend payer are obvious when one is acquainted with its history and organization. It was among the first companies to own a gusher on Spindle Top. It has drilled more wells as they were needed, has been wise and economical in management and in handing its oil contracts, and it has a very low capitalization upon which to pay dividends-low capitalization, large assets and splendid business management have accomplished these results.

### WHY A GOOD INVESTMENT.

1st. It is paying monthly dividends from the sale of oil.

2d. It has the very low capitalization of \$300,000.

3d. It has assets equal to its capitalization, standing its large dividends, the Company has never advanced the price of

the treasury stock beyond par value, 5th. It held its securities until it began the payment of dividends, thus establishing a real value to the stock and assuring the success of the Com-

pany before offering its securities. 6th. It is officered and managed by business and financial men who have

never made a failure of a business enterprise. 7th. The Company makes the open proposition to any one who wishes to investigate its holdings that it will pay the expenses to and from Beau-

8th. The Company guarantees to secure for purchasers of "Katy" stock a loan of 50 per cent of the purchase price. This is above the percentage leaned on gilt-edged real estate, and is 25 per cent more than Companies of like character can obtain on such securities

June dividend checks will be cashed at the St. Louis office. Write for new Prospectus and Map, and further information.

# Some Facts.

Dividends are being paid from actual sale of oil.

Our monthly dividend of 3 per cent, payable June 15th, is now in the hands of stockholders of record June 5.

A 3 per cent dividend, payable July 15th, to all stockholders of record July 1st, will soon be declared.

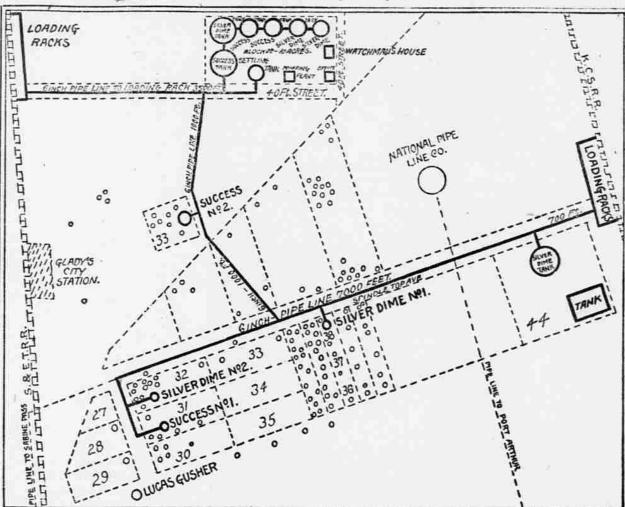

Remember that this company is paying larger dividends than any other company in the field and bringing more actual investors to the Beaumont oil field than all other companies combined. Our proposition exceeds our representations and we are not afraid to

Remember, this company owns MORE THAN THREE TIMES AS MUCH LAND ON SPINDLE TOP AS ANY OTHER COMPANY OF LIKE CAPITALIZATION.

Storage of 1,000,000 barrels of oil, worth more than the entire capital stock of the company.

One of the finest gushers in the field in and another ready to come

The finest and most complete plant for the handling and shipping of oil in the Spindle Top Beaumont Oll Field is under construction. No company in the field is equipped with as complete a plant, and no company of like capitalization has anything that can be compared

Top Beaumont Oil Field. For the sake of e conomy this plant is being constructed jointly by the Success Oil Company and the Silver Dime Oil Company. Heavy lines show the improvements under way and which are being pushed to completion as rapidly as possible. The plant consists of pipe lines connecting four wells, with storage and settling tanks, which are connected with loading racks on two lines of railroads, one on the Kansas City Southern and another on the Sabine and East Texas (Southern Pacific system). The pipe lines are laid so connections can be made with the pipe line of the National Pipe Line Company to Port Arthur and the pipe line to Sabine Pass. Thus this plant can load oil in cars or steamships at will. On Block 22, Gladys Subdivision, Spindle Top, consisting of ten acres, are located six storage tanks, settling tank, pumping station, office and other improvements necessary to make the plant complete in every detail. There is no company in the field that is equipped with as complete a plant, and no company of lke capitalization has anything that can be compared with it.

For the purpose of assisting in paying for this plant a limited amount of stock is offered the public at
